Keep shared contacts

2 steps · about 1 min

Store marina, management and captain contacts in groups everyone can use.

1 Find a contact

Click **Contacts**. Search, filter by group (Networks, Managers, Yacht Captains, …) and sort. **Export** downloads the list for Excel.

2 Add a contact

Click **Add Contact** and fill in the group, name, company, position, phone, email and notes, then **Add Contact**. **New group** adds a group of your own. The pencil edits a contact; the bin removes it.
