Restore something deleted (Recycle Bin)

2 steps · about 1 min

Bring back a crew member, yacht or visa application deleted in the last 90 days.

1 Find it

Click **Recycle Bin**. Filter by **Crew members**, **Yachts** or **Visa applications**. Each item shows who deleted it and how many days are left before it's gone for good (items are kept for 90 days).

2 Restore it

Click **Restore** — it goes straight back where it was. **Delete forever** removes it permanently (you'll be asked to confirm).
