POLARIS · HOW-TO GUIDE · SERVICES

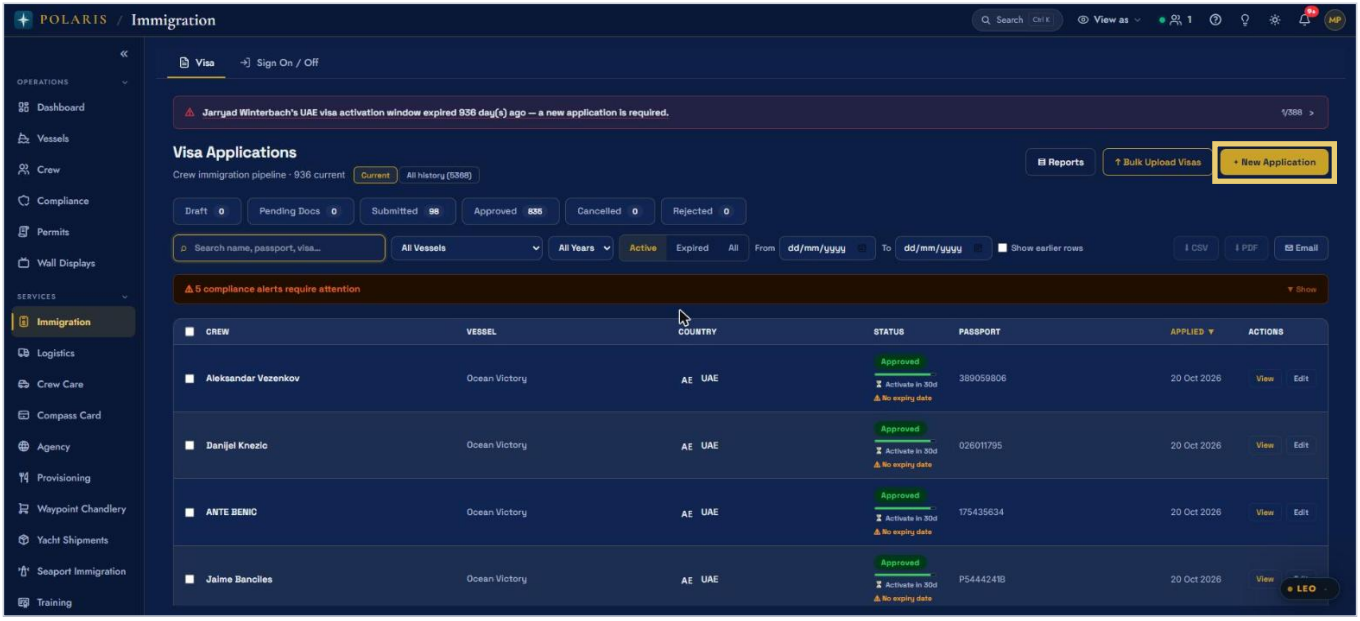

Start a new visa application

7 steps · about 6 min

Apply for a crew visa step by step — country, crew member, passport, details and submit.

1 Click New Application

Open **Immigration**, stay on the **Visa** tab and click **New Application**.

2 Choose the country

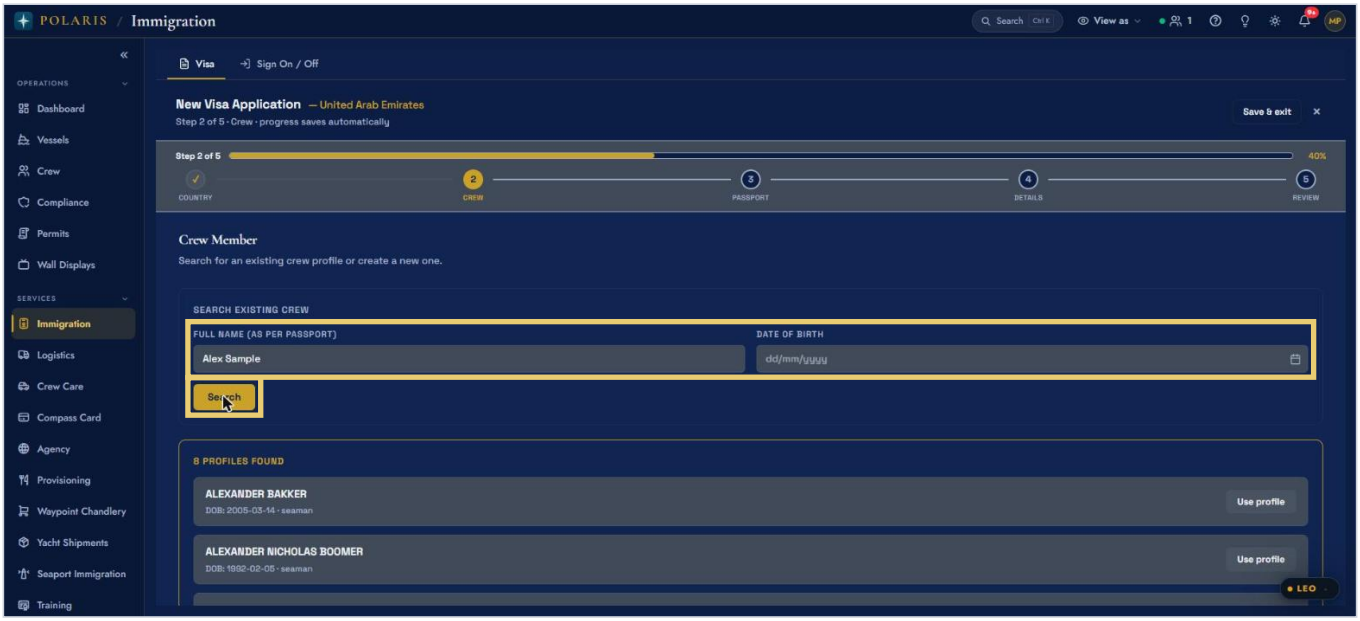

Pick the destination country — **UAE** is selected for you. Click a card once to select it, then click it again (or double-click) to continue. The bar at the top shows which step you're on.

> **Tip:** Progress saves automatically. Click Save & exit to finish later — the application waits in the list as a Draft, with Resume next to it.

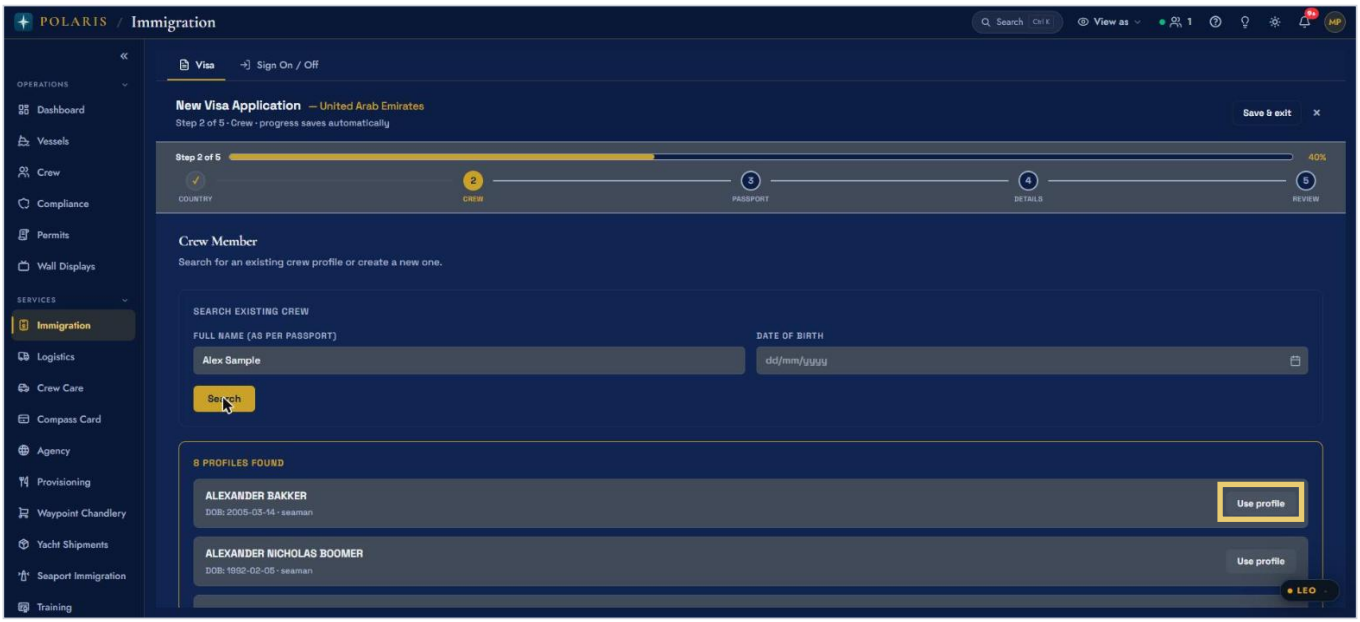

3 Find the crew member

Type the **Full Name (as per passport)** and, if you have it, the **Date of Birth**, then click **Search**. Polaris matches on name and date of birth so the same person is never added twice.

4 Use a profile or create a new one

Click **Use profile** next to the right person. If nobody matches, click **None of these — create new** and fill in **First Name**, **Last Name** and **Date of Birth** (all required), then **Save crew member**. Click **Continue**.

> **Tip:** If the crew member already has an open application, Polaris tells you and links to it — open that one instead of starting another.

5 Choose or add the passport

Passport Details lists the passports on file — click **Select** on the one for this application (always choose; Polaris never picks for you). No passport yet, or a second nationality? Click **Add Passport** / **Add another passport**:

- Upload the **Passport Inside Pages** — Polaris reads the details from the scan for you to check.
- Add the **Passport Cover** and **Headshot Photo** (both required) and the **Seaman's Book** (or tick No Seaman's book).
- Tick every item in the **Passport Checklist** and the confirmation, then **Save Passport**.

6 Fill in the country details

The **Application Details** step shows the fields this country needs — required ones are marked with *. The vessel name is filled in for you. Crew without a seaman's book can use **Generate verification letter**. Click **Continue**.

7 Review and submit

Review & Submit shows everything on one page — use **Edit** to fix personal details, **Copy details** or **Download CSV** if you need them elsewhere. Click **Submit Application**. It appears in the list as **Submitted**.

> **Tip:** UAE visas must be approved before the crew member travels — allow at least 1–2 working days.
